PROFESSIONAL SUMMARY

Data Science undergraduate at SLIIT (3rd year) with strong foundations in Python, SQL, R, Power BI, and full-stack development. Experienced in delivering academic and team-based analytical projects involving statistical modeling, data engineering, and business intelligence reporting. Skilled in translating data into insights through dashboards, structured analysis, and presentations. Seeking an internship to contribute to analytical project delivery, stakeholder collaboration, and data-driven decision-making in a business environment.

KEY PROJECTS

 <https://github.com/patali-ten>

Employee Belonging & Engagement Statistical Analysis

April 2026

Tech Stack: Python, Pandas, NumPy, Matplotlib, Scikit-learn

- Performed descriptive, inferential, and predictive analysis on IBM HR Analytics data covering 1,470 employees.
- Applied Pearson correlation, t-tests ($p < 0.001$), and Logistic Regression achieving 86.1% accuracy and 0.792 AUC.
- Identified strong relationships between low belonging, reduced engagement, and employee attrition.

Data Warehouse and Business Intelligence Solution

April 2026

Tech Stack: SQL Server, SSIS, SSAS, Power BI, OLAP

- Built an end-to-end data warehouse solution processing 100,000+ records through ETL pipelines and SSAS cubes.
- Implemented OLAP operations including slice, dice, roll-up, drill-down, and pivot analysis for multidimensional reporting.
- Developed 4 interactive Power BI dashboards to improve stakeholder access to business insights.

Spice Management System (MERN Stack)

Aug 2025 - Oct 2025

Tech Stack: MongoDB, Express.js, React, Node.js, Stripe, JWT

- Designed state-driven order workflows with real-time tracking, improving visibility across 3 departments.
- Integrated Stripe payments, dynamic pricing, tax calculation, and PDF quotation generation to streamline transactions.
- Built sales and top-product dashboards with downloadable reports to support faster business decision-making.

Smart Campus Operations Hub (Spring boot and React)

March 2026 - April 2026

Tech Stack: Spring Boot, React, JWT, OAuth2, REST APIs, GitHub Actions/CI

- Developed secure authentication and authorization using OAuth2, JWT, and role-based access control for 3 user roles.
- Built a real-time notification system with 14 APIs supporting live alerts, unread counts, and user preferences.
- Led project architecture, CI pipeline setup, and Git workflow coordination across 4 development modules.

Tech Stack: Kotlin, Android Studio

- Developed a wellness-focused mobile application for habit, hydration, and mood tracking.
- Implemented personalized goal-setting and progress monitoring features.
- Enhanced user engagement through interactive progress visualizations.

EDUCATION

BSc (Hons) in Information Technology - Specializing in Data Science

2023-Present

Sri Lanka Institute of Information Technology (SLIIT)

Current CGPA: **3.83**

GCE Advanced Level - Physical Science Stream

2020-2022

Mahamaya Girls' College, Kandy

SKILLS

- **Programming Languages** - Python, SQL, Javascript, R, Kotlin
- **Frameworks and Technologies** - Spring boot, React, MERN stack, REST APIs, OAuth2, JWT
- **Data and Analytics** - Pandas, NumPy, Matplotlib, Power BI, Statistical Analysis
- **Tools and Platforms** - Git, GitHub, Jupyter Notebook, Microsoft Office Suite
- **Professional Skills** - Communication, Problem Solving, Analytical Thinking, Teamwork, Leadership, Time Management, Organizational skills

CERTIFICATIONS AND AWARDS

- Python for Data Science, AI, and Development - IBM
- AI/ML Engineer (Stage 1) -SLIIT
- Python for Beginners – University of Moratuwa
- Deans List Award - All semesters

LEADERSHIP AND EXTRA-CURRICULAR ACTIVITIES

AIIESEC Manager - Outgoing Global Volunteering

2024- Present

- Led student engagement initiatives for international volunteering programs
- Coordinated promotional campaigns and presentations to drive participation
- Managed teams to improve communication, planning, and execution efficiency
